Summary

Software engineer with 3+ years of production experience building responsive, accessible, and performance-focused web applications using React, TypeScript, and Next.js. Experienced delivering production websites for businesses and translating Figma designs into scalable UI.

Skills

JavaScript (ES6+), TypeScript, React, Next.js, HTML, CSS, Tailwind CSS, Accessibility, Responsive Design, REST APIs, Git/GitHub, Agile/Scrum, Performance Optimization, Figma, SEO

Professional Experience

Freelance Software Developer

2025 – Present | Orange County, CA

Parkside Barbershop | parkside-barbershop.com

- Developed and deployed the production website for parkside-barbershop.com using React, TypeScript, and Tailwind CSS.
- Built responsive, mobile-first UI components showcasing services, pricing, and business information.
- Structured the frontend with reusable components and scalable TypeScript patterns for maintainability.
- Collaborated directly with the business owner to translate branding and service offerings into a modern web presence.

Kate Brubaker Fitness & Nutrition | katebrubaker.com

- Designed and launched a production website using Next.js, React, and Tailwind CSS.
- Built a custom design system aligned with the client's brand and services.
- Delivered a fully responsive, mobile-first experience and implemented on-page SEO.

Software Developer — Command Credit Corp | commandcredit.com

May 2023 – July 2025 | Rhinebeck, NY

- Owned frontend implementation for production web pages, translating Figma designs into reusable React components.
- Built responsive, mobile-first layouts using Tailwind CSS with a focus on consistency and usability.
- Improved page performance through component optimization and efficient image handling.
- Collaborated with designers and stakeholders to iterate on UI/UX and rapidly implement feedback.
- Applied accessibility best practices using semantic HTML and ARIA attributes.
- Conducted QA across pages, resolving layout, styling, and functional issues before launch.
- Managed version control with GitHub and participated in pull requests and code reviews.
- Managed HubSpot CMS and integrations, maintaining site content and supporting marketing workflows.

Education

LearningFuze — Computer Software Engineering

October 2022 – January 2023 | Irvine, CA

Completed 800+ hours of immersive software engineering training in an Agile, simulated work environment. Built full-stack applications using HTML, CSS, JavaScript, React, Node.js, and modern development tools.

Leadership & Coaching

Youth Brazilian Jiu-Jitsu & Muay Thai Coach | Kings MMA | Anaheim, CA

- Coach and mentor youth athletes, focusing on safety, discipline, and confidence.
- Communicate complex techniques clearly while leading structured classes and managing groups.
